## Smoke detector GENIUS

### Congratulations on your new BRUNATA-METRONA smoke detector GENIUS

In the event of a fire, deadly smoke spreads quickly and often unnoticed throughout the entire home. A smoke detector protects you and your household because it gives early warning of fire, particularly during sleep when your sense of smell is not active. You therefore save valuable time in which to get to safety and call for help.

Please inform your landlord / property manager immediately of any structural changes and / or changes in use of individual rooms.

Please refer to the instruction manual for information regarding smoke detector GENIUS error signals as well as operating and warning signals. If you have any questions, if the smoke detector GENIUS indicates an error or repeatedly emits an alarm, please contact us on our 24-hour hotline:

BRUNATA-METRONA Smoke detector-Hotline:

# 01806 161616

(20 euro cents / call from German landlines; Mobile calls maximum 60 euro cents / call)
